New England Roofing Company,

MANUFACTURERS OF

WARRENS' IMPROVED

Fire and Water Proof

Composition Roofs,

Office------7 Liberty Square, Boston.

THIS Company would respectfully solicit the attention of Builders, Architects, Manufacturers and the Public, to this much approved system of Roofing, which has been very generally adopted in the cities of Buffalo, Cincinnati, Chicago, and St. Louis, and within the past year in Boston and vicinity, where it has given entire satisfaction. It is rapidly superseding the use of all other kinds of Roof, and is confidently offered to the Public, as a mode of Roofing unobjectionable in every important particular.

The materials employed are none of them subject to corrosion or rust, like the metals, nor will they expand and contract with the changes of temperature, like tin and iron, nor shrink in dry weather, and swell in damp, like shingles, and other wood coverings.

It combines in a greater degree than any other Fire Proof Roof now in use, the valuable requisites of cheapness, durability, and security against both Fire and Water.

These Roofs require an inclination of not more than one inch to the foot, leaving it in good condition for a promenade for drying purposes, and is of particular advantage to adjoining buildings in the event of fire.

They are afforded at a much less price than any other Fire Proof Roof. The amount of material saved, and which would be used (by the old method) in raising the walls, and framing a steep Roof, will further reduce the cost of the building.

Another advantage gained, is the securing of rooms in the Upper Story of the same dimensions and quite as commodious, as those in the lower part of the building. The expense of a Three Story building, with this improvement, not being greater than that of a building of two stories with the pitched roof. There is a further saving in the cost of gutters.

These roofs are not affected by the jar of machinery—like those of Tin or Slate.

The Composition is so prepared that it is not affected by the extremes of heat or cold.

In case of injury from any cause whatever, no roof is so easily or quickly repaired.

Further information obtained by applying at either of the Company's Offices.

House-keepers, look at this Admirable Invention!

JUST RECEIVED!

ANOTHER LARGE LOT OF

PATENT SELF HEATING

SMOOTHING IRONS!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but female labor have been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

For sale, wholesale and retail, by the subscriber, who is the only Agent for Penobscot County.

BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received land.

One hundred and twenty acres to all who have so served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without claiming 160 acres, the same allowances as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the drafted Militia of the State of Maine in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and despatch, and upon as reasonable terms as at any Agency.

He has many Muster Rolls and Copies in his possession, and [illegible] full lists of the Militia drafted for the Aroostook service in 1839.

As no necessary document will [illegible] his charge, he ventures to rely upon his long and well known experience and success in the prosecution of claims.

He will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

GEO. B. MOODY,

Counsellor at Law, and Agent for Pensioners and Bounty Land Claimants.

Office in Dow's Block,

BOUNTY LAND!

B. H. MACE,

Counsellor and Attorney at Law,

WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND under a recent act of Congress, granting 160 acres to all who have served 14 DAYS in any war since 1790.

Those who have received 40 acres are entitled to 120—those who have received 80 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows or minor Children of deceased Soldiers, are also entitled.

Mr. M. having procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give entire satisfaction to all who may place their claims in his hands.

No charge unless successful, and the highest market price PAID to those who wish to sell.

Office in Hildreth's Block, West Market Square, next door to J. B. Prince's office.

UNITED STATES

Bounty Land Agency:

Press Forward Your Claims!

ARMY and Navy Officers, Soldiers both Regulars and Volunteers, Sailors, Marines, Flotilla Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred and Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres!

In the case of the death of the person entitled to land, his Widow, or if no Widow, the Minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers and all others, with the necessary instructions and blank forms, free of cost, on application, by mail or otherwise.

When desired, we will sell the Warrant at the market price and remit a check for proceeds.

More Bounty Lands.

BY the Act of Congress passed March 3, 1855, all Officers, Soldiers, and Seamen who have served FOURTEEN DAYS in any war of the United States since 1775, are entitled to 160 acres of land, if they have not received it. Those who have received 40 or 80 acres, are now entitled to enough more to make up the 160. Those who have received 160 acres are not entitled to any more. The benefit of this Act extends to the widows and minor children of the soldier, but to no other heirs. Those who have been engaged in BATTLE are entitled to 160 acres, without regard to the period of their service.

Persons having claims under this or any other Act, will have them promptly attended to by calling on or writing to, A. L. RICHARDSON & CO., 11 Railroad Exchange, Court Square, Boston, who pay cash for warrants.

N. B.—We have faithful and experienced agents in Washington, and we make no charge in any case, unless we obtain the land.

IS THERE CAUSE OF WAR WITH SPAIN?—There appears to be little cause for war with Spain, if we may credit the statements made as to the disposition of the Spanish government to do us justice in the matter of the outrages which have been so loudly complained of. In regard to the Black Warrior affair, about which there has, perhaps, been more excitement in the United States, and a greater amount of indignation expended than upon any other similar occurrence, a responsible Paris correspondent recently stated that Mr. Perry, our present representative at the Court of Madrid, has obtained from the Spanish government all that has ever been asked by our own. The government recognizes fully the illegal conduct of her officials; condemns them and disavows their acts, promises to dismiss from its service all who took a responsible part in that transaction; and as to those who are no longer in her service, from General Pezuela down, to bring them before the Supreme Tribunal of Justice, to answer the accusation of the government under that process, peculiar to the Spanish laws of the Indies, by which the Captain General and other high officers of the possessions beyond the sea may be called before the Supreme Tribunal to give an account of their conduct whilst in office during a year after their return to Spain, and if condemned in any particular, be made to suffer the corresponding pains and penalties. At the same time Spain offer full and complete indemnity to all who suffered by that outrage, upon the presentation of their papers proving their damages. "*This arrangement is understood to have gone to Washington about the last of February*, and the government of Madrid was only waiting the return of the mail which ought to bring the formal acceptance of the arrangement by the Cabinet at Washington, in order to lay all the documents before the Cortes."

THE EXTENSION OF THE TELEGRAPH.—The rapid extension of the magnetic telegraph is daily bringing all parts of the inhabited world into more intimate and speedy communication with each other, and uniting more and more closely men of different races and climes by a rapid medium of intelligence. If "mountains interposed make enemies of nations," the removal of barriers by means of railroads and telegraphs, ought to pave the way for more friendly relations, as they do for more intimate commercial connections, between the nations of the earth.

The New York Times states that the electric telegraph is now established, almost without break, from London, across Europe, under the Black Sea, and into the Crimea—a distance of some eight hundred leagues, which is about equal to four fifths of the actual distance between Liverpool and New York, and more than equal to the entire route from Ireland to Halifax. The last newspapers from England, by the Asia, contain intelligence from Balaklava *of the previous date*. That is, such intelligence was committed to the wires at Balaklava at 4 o'clock in the morning, and received in London on the afternoon of the same day. We may thus calculate on receiving news from the Crimea within ten days.

The sub-marine cable is laid down some 300 miles at the bottom of the Black Sea. It remains to be seen how far it may be affected by under-currents and other obstructions. Scientific men in Europe have little fear on that score—the principle once established as successful, we may speedily expect to have a sub-marine telegraphic line between the Old World and the New, and there is no reason, that once accomplished, why the daily news of London and Paris should not be published in this country within a few hours of its occurrence.

New Publications.

"THE FAMILY AT HEATHERDALE: or, The Influence of Christian Principles. By Mrs. Mackay, Inverness, author of the Wycliffites, &c. New York, Robert Carter & Brothers. 1855.

This is the third edition of this work—a religious story, which has met with great acceptance by the religious world. The writer says she has "endeavored to exhibit by the illustration of a simple story the practical workings of the various and opposite principles which regulate the conduct of individuals, and to show the noticeable influence of such principles on the occurrences of Life."

For sale by E. F. Duren.

PRECES PAULINAE; or, The Devotions of the Apostle Paul. New York: Robert Carter & Brothers. 1855.

This will be a very acceptable volume to religious readers—setting forth and illustrating, as it does, the devotional exercises and character of the Great Apostle. The book is published in handsome style, by the above-named well-known publishers, and is for sale by E. F. Duren.

ORDINATION. Mr John S Zelie, a graduate of the Bangor Theological Seminary, is to be ordained to the evangelical ministry, at the Central Church, on French st., this (Wednesday) evening. Services to commence at seven o'clock. Sermon by Rev. Prof. Shepard. We understand that Mr. Z. will leave for California by the next steamer, as a missionary, under the auspices of the American Home Missionary Society.

[illegible], at the Old Market House, on Kenduskeag Bridge, has given us demonstrative evidence that he keeps the nicest qualities of lobsters and fresh fish that can be found in the market. He intends that no one shall go ahead of him in that respect. Fine shad and alewives are now current.

An adjourned term of the Supreme Court, for civil business, commenced its session in this city, on Tuesday—Judge Hathaway presiding. It will probably occupy two or three weeks.

"THE DOESTICKS PAPERS."—A volume of the inimitable writings of this humorous and witty writer is now in press, and to be issued early in June, by Edward Livermore, No. 20 Beekman street, New York. It will be printed and bound in superior style, in 12mo form, cloth, and gilt, and will contain many apt illustrations, by the best artists. It will be sent to any part of the United States, free of expense for $1 in cloth or 75 cents in paper binding—or it can be had at the various bookstores. Few writers have been more popular than the author of the Doesticks papers, and the book undoubtedly will have a large sale.

We are indebted to Mr Josiah S Mitchel for a supply of California papers by the last steamer. Among them is a copy of a new paper called "The Oriental" or "*Tung Ngai San Luk*," printed on one side in English, the other in Chinese, and "devoted to information relating to the Chinese people, the Eastern World, and the promotion of Christianity."

We should have stated that the opinion of Chief Justice Taney, upon the prohibition of the sale of intoxicating liquors, an extract from which was published in our paper of Monday, was also the opinion of the United States Supreme Court. Six of the seven Judges concurred in the opinion, entirely, and the seventh agreed to the constitutionality of the prohibitive principle.

A large number of men are at work upon the site of the new and elegant Catholic Church which is to be erected on York street, and we understand the corner-stone will be laid in a few days. It is expected that the edifice will be completed before the commencement of winter.

ACQUITTED.—James G. Darnand, recently on trial before the U. S. District Court, at Philadelphia, for piracy in being concerned in the slave trade, in the brig Grey Eagle, has been acquitted by the jury.

The influential citizens of New Orleans are determined to make an effort under the new city government, to close all places of public amusement upon the Sabbath.

"THE DOESTICKS SCHOTTISCH," is the title of a new piece of music just published by Edward Livermore, New York, and dedicated to "Q. K. Philander Doesticks, P. B." It is one of the best things out.

Thanks to Edwards & Co's Express, and to Mr Cushing for papers by the Daniel Webster.

MEMBERS OF CONGRESS GOING ABROAD.—The New York Times mentions that Hon. E. B. Morgan of the Cayuga district, Hon. Benjamin Pringle of the 30th district of New York, and Hon. Israel Washburn, Jr., of the 5th district of Maine, contemplate setting out upon a European tour on the 16th instant.—*Exchange.*

This is erroneous so far as Mr. Washburn of this district is concerned. Hon. E. B. Washburne of the Galena district, Illinois, is to be one of the party.

STARVATION IN BANGOR.—Many of the shade trees in our city, particularly those on Broadway, Somerset and State streets, are in a starving state, and unless furnished with a supply of nutriment, they will die. Those who would learn how much shade trees improve by good feeding will find excellent examples at the dwelling of Mr. Paulk on the corner of Broadway and Somerset streets. It is found good treatment for shade as well as fruit trees, to give them a good coat of manure at the surface of the earth, and then mulching with vegetable mulch, spent tan or straw.

There are few cities where there are so many young trees as in Bangor; and it seems quite a pity, after the trees are set, for them to suffer from the want of sufficient nutriment.

LEAF.

THE SOUND DUES.—An English paper says "The United States have formally communicated to Denmark that, on the expiration of the existing treaty, the Republic will pay no more sound dues; and Jonathan means what he says. The opposition in Prussia have adopted the same views, and the government dare not resist, but courts delay. Ministers have proposed and carried the following resolution:

"That the Second Chamber expresses its conviction that the government will take the first favorable opportunity for the total abolition of the sound dues."

A FEARFUL STORM OF SHOT.—Among the accounts of the recent bombardment of Sebastopol, we have the following incident of the second day:

During the whole of the morning, the firing continued on our side with little intermission—while that of the Russians was evidently slackening. At about four o'clock, however, all the enemy's lines and batteries suddenly sprung into life and vigor. Volleys from 100 to 130 guns were fired at once from the Redan, the Flagstaff, Barrack, Jardin, and Malakoff batteries; even the Mamelon, which all thought destroyed and untenable, fired five or six guns in succession. Their shot came in upon our works like hail. On every point along our lines, balls were to be seen bounding and plunging, and shells bursting like fireworks in the air. Never, perhaps, was such a concentrated and destructive cannonade witnessed since the commencement of the siege. All felt that if it continued two or three hours our works would be levelled with the dust, as, though both English and French kept up a terrific fire, the enemy, in spite of our utmost efforts, gave two guns in reply to our one. The rapidity and deafening uproar of the fire brought all who were at leisure to the front, and the oldest and most experienced artillery officers augured very unfavorably of our prospect of taking the fortress which could command such a fierce cannonade.

ACCIDENT.—An engineer on the Kennebec and Portland Railroad, by the name of McCatlin, on Saturday, lost a portion of one of his feet by being run over by the engine in Westbrook. At the time of the accident McCatlin was scattering sand on the rails, to prevent the cars from slipping.

FOR LIBERIA.—The bark Cora, which sailed from Norfolk, Va., last Sunday, for Liberia, had on board three missionaries of the Protestant Episcopal Church, some cabin passengers, and 106 emigrants; 48 from Kentucky, 25 from Virginia, and the balance from Maryland and other States.

A few days ago, upon the arrival of the cars at Michigan City, Indiana, a gentleman left a package of $4000 on the seat he occupied.—Soon after a brakeman, named Cyrus W. Warren, passing through the car, found the package and sought out the owner. He was offered a compensation, but refused to accept any.

California News—Arrival of the Illinois.

NEW YORK, May 15.—The steamship Illinois arrived here this morning from Aspinwall, via Kingston. She did not put into Havana, but the news there was obtained from the steamer El Dorado.

The Illinois brings about 700 passengers, and $1,115,000 in treasure.

The disaster to the Golden Age is reported by Purser Hall as follows:

On the 29th of April at 2 A. M., the Golden Age struck on a sunken rock off the southwest end of the Island of Quibo, she commenced leaking badly, and it was deemed advisable for the safety of the passengers, mails and treasure, to run the ship ashore, which was accordingly done. A smooth, sandy beach having been selected for the purpose, there was a strong probability of the ship being got off.—After a detention of two days the passengers, mails and treasure, were transferred to the John L. Stephens and landed on the 2d of May at Panama safely.

The Steamer Sierra Nevada from San Juan arrived up at San Francisco on the 9th of April, and the Golden Gate from Panama on the 13th.

During the past week the following named clipper ships have arrived at this port:—viz: the Tornado, Sunny South, Sea Nymph, Morning Light, Charming Manlius, Flying Arrow, Water Witch, and Western Continent, from New York; the Telegraph, Charmer, Saracen, Reindeer, Boston Light and Golden City, from Boston; and the Greenwich, and Sparkling Wave, from Philadelphia,—seventeen ships, and all heavily laden with goods. Of course a large loss must result to the shippers, but there will be a proportional gain to the consumers, and there is scarcely an article—certainly none of the necessaries of life—that cannot be purchased there as cheaply as in any of the Eastern markets.

Business in California was very dull and money tight. Several mercantile houses had failed.

The miners were doing well, but owing to the scarcity of rain, very little dust reaches the market.

The United States Land Commission is making sure progress in the settlement of land titles. There can be no doubt that within the year every title in the State will be adjudicated.

Both branches of the Legislature had fixed upon the 30th for adjournment.

The renewal of the Senatorial question was considered very doubtful.

An Anti-Gambling law of a very stringent nature had passed both houses, and is calculated to effectually close all the gambling houses in the State.

Mr Douglas' bill for dividing California into three States—Shasta, California and Colorado—is in the hands of a committee; but division cannot take place this year.

The creditors of Adams & Co. have chosen Richard Roman, Edw. Jones and A. A. Cohen as assignees of the estate of Adams & Co. and I. C. Woods. The creditors voting represented claims to the amount of half a million of dollars.

A fire in Jackson on Thursday 5th inst., destroyed property valued at one hundred thousand dollars.

The Mint had not resumed operations. Rain had fallen steadily in the valleys for a week, and in the mountains snow to a great depth had fallen.

The unsatisfactory state of commercial pursuits was driving large numbers of clerks and mechanics to the mines.

The news from Kern river is as contradictory as ever, but the diggings are represented as by no means so rich as at first represented.

The Know Nothings were successful in the city elections all over the State. At San Jose however, they had been defeated by a general fusion.

The Press Club of San Francisco had taken steps for the erection of a monument to the memory of Edward Gilbert, one of the pioneers of the press in San Francisco, and the first Representative to Congress from California.

The steamer Sunrise, and one of the steamers of the California Steam Navigation Company were to have a race shortly for $5,000.—In the meantime, the Sunrise had been hauled off from the river trade.

Dates from Portland, Oregon, April 7th, mention that the Know Nothings had triumphed in a municipal election.

Dates from the Sandwich Islands are up to April 20.

The United States sloop of war Decatur arrived there on the 8th of March, and the British sloop-of-war Dido, on the 9th.

Among the failures at San Francisco were Messrs. Bleek & Elam, and Tilden & Little.

Markets.—Every article of merchandise, was dull of sale, and in many things a considerable decline had taken place. The closing rates were Oswego and Haxall flour, in lots, $14, extra clear butter 40c, crushed sugar 9½, clear pork $18 a 19, mess $15; hams 10½.

From the Isthmus.—A party of five men, including Mr Carter, purser of one of the mail steamers, and Dr Watson, of Taboga, were drowned, while sailing in a pleasure boat in the bay of Panama.

WORTH TRYING.—An exchange gives the following as a sure cure for a felon:

A felon generally appears on the end of a finger or thumb. It is extremely painful for weeks and months, and in most instances cripples or disfigures the finger or thumb that falls a victim to it. But it can be easily cured if attended to in time. As soon as the pain is felt take the white skin of an egg, which is found inside of the shell, put it around the thumb or finger affected, and keep it there until the pain subsides. As soon as the skin becomes dry it will be very painful, and likely to continue for half an hour or more, but be not alarmed. If it grows painful bear it, it will be of short duration, compared to what the disease would be.

There is a remarkable item in the report of the State Engineer and Surveyor, which shows how little loss of life occurred upon our railroads during the last year. Over some sixteen of our main roads, there were 12,255,714 passengers carried, and out of this immense number only 12 persons were killed, or one in a million. All these 12, it appears, were killed while standing on the platform or getting on and off while the cars were in motion.—*New York paper.*

THE ANGORA OR CASHMERE GOAT. We were shown at the Agricultural Bureau a sample of wool of the Angora or Cashmere goat, sent to the Patent Office by Mr. Richard Peters, of Atlanta, Geo. This specimen was taken from the progeny of one of the animals imported from Persia by Dr. James B. Davis, of Columbia, South Carolina, in 1849.—This wool is about ten or eleven inches in length, of a fine silky texture and pure whiteness. The clip of wool to each animal in this country is from four to four and a half pounds—being a somewhat larger yield than that of Persia. The experiment, thus far has been highly satisfactory, as the entire flock has increased from seven females and two males to upward of fifty, but unfortunately the kids in most cases have been males. They breed annually and usually give two kids at one birth. Mr. Peters has recently purchased the entire flock, and Mr. Davis is on the point of embarking for Asia Minor with the object of importing more.—*Exchange.*

The increase in the consumption of paper is thus stated:

Forty years ago three men, by handiwork, could scarcely manufacture 4000 small sheets of paper in a day, while now by the use of machinery, they can produce 60,000 in the same time. It has been calculated that if the paper produced yearly by six machines could be put together, the sheet would encircle the world. In France only 70,000 tons are produced yearly, of which one seventh is for exportation. In Britain 66,000 tons are produced, while the amount produced in the United States is nearly as great as in France and England together.

SIBERIA. The New York Times has the following description, by a correspondent, of this delightful country:

SIBERIA.

It has been the policy of Englishmen to represent Siberia, and, in fact, all parts of the Empire of Russia, as a cold, bleak, inhospitable and cheerless tract of desolation and sterility. But the facts of the case are widely different. Siberia is a charming and delightful region, and so generous and humane are the Czars, and so parental have they been in their government of the people, that they always give a free passage to any of their subjects who visit that part of their territory, and it has often happened that even distinguished members of the Imperial Court have been sent there without their wishes being consulted, the Emperor knowing it to be for their good. Several members of the Ruffskuffskie family have in this way become residents of that delightful country, and the fact of not one of them ever having returned, is sufficient proof of their being vastly pleased with their change of residence. The Ural Mountains form a most charming Winter residence, and working in the mines is found to be mere pastime. The Governor of the province, Prince Skabulski, is one of the most humane gentlemen in the world, and his daughter, the Princess Alexandrina Cowskinski, devotes her whole time to enlivening the society of the so-called exiles. The fields of Siberia are always green, and the streams, particularly the Potemkisk—which empties into Okchkol, and forms by its confluence with that stream the beautiful and romantic lake—abound with the most delicious gold fish. Diamonds, rubies and sapphires are as common as pebbles, and gold is so abundant that the inhabitants hardly know the value of it, which is the reason, probably, of horn spoons being more common than any made of that precious metal. Such is the salubrity and mildness of the Siberian climate, that the mercury rarely rises or falls in the barometer, a fact which is not owing to its being in a frozen state, as some may imagine. There are usually two crops in a season in Siberia, and it is a common mistake to suppose that one of these is of moss and the other of icicles. The finest fruits abound in that region and the state of society is such that the Czar is obliged to prevent, by an imperial ukase, members of the exiled families from visiting each other, so strongly attached are the amiable people to one another. Visits from bears and wolves, who are very neighborly and fond of human society in this charming country, are not interdicted, thus showing the paternal and considerate care of the Emperor of his children. Nothing can be more erroneous than the prevalent notions of the military rule of the Czar, not more than two out of four male members of any one family are ever required to serve as soldiers. The Steppes of Tartary, are, contrary to the generally received idea, composed of marble with gilded balustrades, and carpeted with Turkey carpets. Nothing can exceed the loveliness and beauty of the country in general, but the amiability of the imperial officers, and the mildness of the imperial rule.

MONETARY AFFAIRS. *Boston, Monday Morning, May 14th.* Money is abundantly supplied at the Banks and in the street, and appears to be accumulating in the hands of lenders. The offerings of paper at the discount houses are very meagre, the Banks furnishing ample accommodations to business men to absorb the great bulk of desirable notes. Outside rates are from 6 to 7 per ct. for the best names, and from 7 to 9 for lower grades. The anticipated arrival of $1,300,000 in California gold at New York, on Saturday, diffused a very cheerful feeling in the street, and is welcomed as an indication of returning confidence in the gold region, and as the beginning of more liberal shipments. The effect of this upon financial matters in the great commercial centres of the Atlantic coast, will be electrical, the Banks will no longer look distrustfully upon the weekly exports of coin, and business men will feel greater confidence in the stability of the present easy condition of the money market.

The imports to New York last week show a large decline, viz: Dry goods, $532,632; general merchandise, $1,318,229; total $1,850,862, against $2,925,981 in same week of 1854. Total imports at New York since January 1st, $46,609,714, against $77,704,340 in the corresponding period of 1854.—*Boston Journal.*

WAR IS COSTLY. The English are discovering that it is impossible to carry on a cheap war, and the taxes are beginning to press upon the nation. The London Times reflecting upon the thirty millions of pounds a year which the war now costs, says, that in order to pay for one soldier at the seat of war, or one horse, or to supply a Lancaster gun for half an hour, they must pay what would maintain four or five families in comfort, keep a good parish school, provide an active clergyman for a neglected district, or do some other good work that, may be, will never now be done. As there is now no prospect of a peace, new expenses must be incurred to carry on the war successfully.

MEDICAL DISCOVERY. A few days since an Irishman upon one of our wharves was obliged to suspend work on account of being afflicted with an ulcerated sore throat. His employers pitying his suffering, sent him a jar of nice currant jelly, and to their great surprise he resumed his labors the following day with his head and throat completely enveloped with bandages highly discolored. Upon being questioned as to his health and peculiar appearance, Pat replied "That was a beautiful medicine ye gave me, and did me a power of good. I made it all into a nice poultice and put it on the outside of me throat, and it's far better than all yer doctor's stuff!"—*Boston Transcript.*

Shakspeare's profession was not authorship, but the stage. Milton was a schoolmaster and a secretary. Addison, too, was a secretary of state. Pope was a man of private fortunes. Fielding was a justice. Richardson kept a shop—so did Goodwin. Cooper lived on his patrimony, and on gifts from his relatives. Wordsworth was a stamp master. Croly is a rector. John Wilson was a professor. Shelley was man of fortune and heir to a baronetcy. Byron was a peer. Carlyle has an estate. Browning is a man of fortune and family.—*Gilfillan.*

TAKING A LANDLORD AT HIS WORD. We have heard of cool things, but never anything cooler than the following.

The landlord of a hotel at Whitehall called a boarder to him one day and said "Look o' here, I want you to pay your board bill, and you *must*. I've asked you for it often enough, and I tell you now, that you don't leave my house till you pay it." "Good!" said his lodger, "just put that in writing; make a regular agreement, I'll stay with you as long as I live."—*Knickerbocker Magazine.*

TAKING IT COOLLY. A Crimean correspondent of a London paper, speaking of the bombardment of Sebastopol, says:

"Yesterday, the 13th inst., under the very hottest of the fire a Russian walked through one of the embrasures of the Round Tower, coolly descended the parapet, took a view of the profile of the work and sauntered back again—a piece of bravado which nearly cost him his life, as a round shot struck within a yard of him, and a shell burst near the embrasure as he entered it."

OPINION OF THE PRESS.
From the "Sentinel and Reformer," Worcester, Mass.

Wistar's Balsam of Wild Cherry.

The beneficial effects of this remedial composition are astonishing the world, and make it one of the most popular medicines now known. For Coughs, Colds, and Consumptive cases, its curative powers are established by numerous testimonials of the highest character. In the first stages of the disease termed "(Unarrested) Consumption," originating from neglected colds, it has been used with unfailing success, and hundreds acknowledge they owe the restoration of their health to this invaluable medicine.

Many of the first physicians prescribe it in their practice.

Always signed I. BUTTS on the wrapper.

Agents for selling Wistar's Balsam:—J. S. Ingraham, D. Hughes & Co., Bangor; J. Curtis & Son, Hampden; M. Davis & Co., [illegible]; E. T. BLACK'S FURNITURE POLISH!
Price 37 1-2 cents per bottle!

This article is very easily applied—removes spots, stains, and restores the original color, and is warranted to make Old Furniture look nearly as well as new.
PATCH & LEWIS,
may12 only agents for Bangor.

NEW DISCOVERY.
Brown's Compound for the Hair.

This superior Compound has been prepared with the greatest care, from the receipt of one of the first physicians in the country. It is decidedly preferable to any article of the kind which is before the public. Although but recently introduced, its advantages are acknowledged by the many who have used it. It is a SURE REMEDY FOR BALDNESS, a certain preventive of the hair falling off, and unequalled in promoting its growth and beauty. It can be safely relied on, and need only to be used to be approved. Warranted to give satisfaction.

For sale by the Sole Proprietor, J. S. INGRAHAM, Druggist, Bangor. 4m

VERY IMPORTANT INFORMATION

Dr Johns, one of the most celebrated Physicians in New York, writes as follows:

Dr Curtis—Dear Sir:—Having witnessed the excellent effects of your Hygeana or Inhaling Hygean Vapor and Cherry Syrup, in a case of chronic Bronchitis, and being much in favor of counter irritation in affections of the throat, bronchial tubes and lungs, I can therefore cheerfully recommend your Medicated Apparatus as being the most convenient and effectual mode of applying anything of the kind I have ever seen. No doubt thousands of persons may be relieved and many cured, by its application.

You are at liberty to use this in any way you may think proper. Respectfully, yours, &c.,
C. JOHNS, M. D.

California Steamers,
Carrying the United States Mail.

Through Tickets, including transit of the Isthmus, via Panama R. R.

5th and 20th of each Month.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month, excepting when these dates occur on Sunday, and then the days of sailing will be postponed to the following Monday.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic mails and passengers, thus securing passengers by the Mail Line, a sure and short passage, without any detention on the Isthmus.

Passengers are landed at the Railroad Depot, Aspinwall, *free of expense*. The Railroad being completed, and Cars running through to Panama, four hours only are required for crossing the Isthmus

Tickets must be signed by one of the Company's Agents, before they will be recognized, by the Agent at Panama, and Tickets thus signed can be obtained at the *Only authorized Agent* for the Pacific Mail Steamship Company in this city

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.
No. 76 State Street, oppos. to Kilby St., BOSTON.

IMPORTANT INFORMATION to Inventors.—The subscriber, (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be returned by him in the case of a failure to obtain a patent, and the withdrawal thereof is made within sixty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

Patent Office, —, 1852.
R. H. Eddy, Esq., Boston, Mass.
Sir—Your facilities for the prosecution of any business entrusted to this office, are equal to those of any other agent. Very respectfully, yours, &c.,
THOMAS EWBANK,
Commissioner of Patents.

After the 1st of May a Freight Train will leave Bangor at 9½ A. M. and Oldtown at 12½ M. A Car for passengers will be attached.
apr18 E. HARRIS, Agent.
Dem., Age, and Mercury copy.

Androscoggin and Kennebec RAIL-ROAD.

Summer Arrangement.

ON and after MONDAY, April 2, 1855, Passenger Trains will run between *Waterville* and *Portland* as follows:

Leave Waterville at 6 15 A M and 12 M., and connect at Portland with trains for Boston.

Passengers by either train can reach Great Falls, Lawrence and Lowell, same day.

Morning train from Waterville connects at Lewiston Junction with trains for Paris, and trains are connected at same place with train for Paris, Gorham, Island Pond, and Montreal.

Returning, trains arrive at Waterville at 1 45 A M and [illegible].

Trains on Penobscot and Kennebec Railroad run between Pittsfield and Waterville, to connect with both trains each way—leaving Pittsfield at 5 15 AM and [illegible] AM, and arrive at 1,20 PM and 6 25 PM.

Stages between Bangor and Pittsfield connect with each train.

Through tickets sold to Boston and Portland, as heretofore.

EDWIN NOYES, Sup't.

March 7, 1855.

Penobscot and Kennebec RAIL-ROAD.

Opened to Pittsfield.

ON and after MONDAY, April 2, 1855, Passenger Trains will run between Pittsfield and Waterville as follows, to wit:

Leave Pittsfield at 5 15 and 10 25 AM, for Waterville, to connect with the trains there for Portland and Boston same day.

—RETURNING—

Leave Waterville on arrival of each train from Portland.

Stages run daily between Bangor and Pittsfield, to connect with the above trains.

EDWIN NOYES,
Apr 27, 1855. Sup't A. & K. R. R.

DR. J. H. SCHENCK'S

PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine was himself, many years since, reduced so low as to be given up by his physicians and friends, in the last stage of Consumption. When all hopes of ever getting well had fled, he was strongly recommended to use a Syrup made from an old fashioned receipt, which succeeded in effectually curing him. The family physicians and a large number of respectable gentlemen certified to the facts of this hand, and soon the Pulmonic Syrup obtained a reputation never equalled in that section of the country. Creating, as this medicine did, a sensation second to that only of a miracle, Dr. Schenck was waited upon by many similarly afflicted, to whom he administered this Syrup with the same beneficial results. In fact, such was the notoriety of this medicine, that eminent physicians had their attention drawn toward the rising reputation of it, from having witnessed its curative powers, and have extended the hand of friendship and encouragement to Dr. Schenck, and introduced the medicine to the public, and used it in their daily practice.

No other medicine operates upon the system in the manner that the Pulmonic Syrup does. It produces a healthy action upon the morbid parts, by purifying them of the disease. It promotes the expectoration, allays the cough, ripens the matter on the lungs, and when it is discharged, it heals the opening that the breaking of the tubercles or abscess produced, and the Lungs become sound and resume the performance of their natural functions; it also soothes the irritated portion of the lungs and other organs, and thus restores those parts to health. A superior property the medicine possesses over all others is that it contains no opium, calomel, or any other deleterious ingredient.

In 1831 Dr. Schenck removed from Flemington, New Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation excelled by none in curing a disease that had been before considered incurable, and he has since then daily presented to the world incontestible evidence of his success.

Both of his parents died with Consumption, which appears to have been an hereditary disease with his father's family. All his brothers and sisters excepting one, died early of this disease, none of them, but the one brother, reaching the age of twenty.

Thus left is only the last of his family, he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer.

VOLUNTARY TESTIMONY.

We, the subscribers, residents of Flemington, do hereby certify that we are well acquainted with Dr. J. H. Schenck. He was attacked by disease, which, as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his bed for a long time, and to all appearance was past recovery. He is now perfectly well—his cough and fever have left him, and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup.

Bangor, August 2.

[Continued from last week.

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the Bowels, Liver and Pancreas, to a healthy discharge of their functions.

Two will insure a pleasant discharge from the Bowels, at a regular period of time every day.

Four to six will purge through every corrupt and poisonous humors from the alimentary canal.

Important to Pill Takers.

Every one who is in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most *certain Purifier of the Blood* in use.

One of *Radway's Regulators* is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills.

Radway's Regulator.

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R. R. REGULATORS. These pills can be taken for any length of time with the same safety to the constitution, for, instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the action of the liver, and are called mercurial or liver pills. Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels but on the liver, skin, pancreas and kidneys, regulating each organ to a healthy action. They are not drastic, and never give pain as most purgative pills do; they stimulate the liver without endangering the patient with salivation, as mercurial pills do; containing no minerals in their composition, they are harmless when used for any length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulate, 4 to 6 purge—good at all times.

As a Family Physic

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Aches, Nervousness, Melancholy, Diseases of the Bladder.

Female Complaints.

Leucorrhea, Fluor Albus, Whites and Irregularities of all kinds.

Billious Diseases.

Pile on the stomach, Bilious Cholic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

For great cures performed in a short time by R. R. Relief, see next week's paper. R. R. R. Remedies act quick—the moment they are taken or applied their health-relieving efficacy is experienced.

G. W. RICKER, would respectfully announce to the Traveling Public that he has re-opened the Stanley House Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

Nov 28, 1854.

Eveleth House,

At Foot of Moosehead Lake,

GREENVILLE, ME.

W. H. CROSSMAN, formerly of the Waterville House, Waterville, and JOHN SHAW, formerly of the King House, Bath, would respectfully announce to the public generally, that they have taken the above named new and convenient House and furnished it throughout with substantial and elegant furniture, and are prepared to furnish the Traveling Public or Pleasure Parties, with better accommodations than can be found at most Hotels in large cities.

As a Summer Retreat

For Hunting, Fishing, Bathing, or to the lovers of beautiful Scenery, this House and location offers great attractions—more probably than any in the State of Maine.

Persons traveling for business or pleasure will find at this House a table well supplied with the luxuries of the season, good Rooms, and every accommodation which can be desired.

The subscribers hope, by strict attention to business, and keeping in every respect a good House, to receive a liberal share of patronage.

CROSSMAN & SHAW, Proprietors.

CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give *Directions* for their use in the complaints which they have been found to cure.

FOR COSTIVENESS.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of PILES, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

FOR DYSPEPSIA, which is sometimes the cause of *Costiveness*, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the *heartburn, bodyburn*, and *soulburn* of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

FOR A FOUL STOMACH, or *Morbid Inaction of the Bowels*, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

FOR NERVOUSNESS, SICK HEADACHE, NAUSEA, *Pain in the Stomach, Back, or Side*, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

FOR SCROFULA, ERYSIPELAS, *and all Diseases of the Skin*, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health. Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

TO PURIFY THE BLOOD, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every where.

LIVER COMPLAINT, JAUNDICE, *and all Bilious Affections* arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhoea, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow, the stomach acid, the bowels sore to the touch, the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhoea, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, *and all Inflammatory Fevers* are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

AS A DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.

The Most Successful Remedy.

REV. WALTER CLARKE'S

Great European Cough Remedy,

—OR—

Universal Cough Mixture,

IS unquestionably the best remedy for Coughs and Chronic Pulmonary diseases ever discovered. Read the following certificates and remember they are all from persons of the first respectability, and are all living in this State and are willing to answer all enquiries addressed to them.—Read and judge for yourselves. They are selected from a multitude of others.

From Dr. John Brown, Liberty, Me.

DEAR SIR—I have made use of your European Cough Remedy [illegible] to my entire satisfaction, and I have continued it in my practice with the happiest results, and am fully convinced that it is one of the best medicines in use for what it is recommended. JOHN BROWN, M. D.

Mrs. HUSSEY, wife of [illegible] of Searsmont, had for two years and ten months been afflicted with a most distressing cough, with [illegible] of the lungs and other [illegible]. During this time she had employed seven physicians, and taken [illegible] of the popular advertised medicines without experiencing any permanent relief. Many nights she was obliged to sit up for hours, not being able to breathe lying down, and her friends despaired of her recovery. Last June she was induced to try Rev. W. Clarke's Great European Cough Remedy. A trial bottle (25 cts.) greatly relieved her, and encouraged her to try a large one, 75 cts., and to the astonishment of all who knew her, these two bottles, without any other medicine whatever, completely restored her to health, which she continues to enjoy.

Mr. and Mrs. Hussey hold themselves ready to answer all inquiries respecting the above extraordinary cure, and are satisfied that the European Cough Mixture is the best remedy known for Coughs and disorders of the Chest and Lungs, and as such they recommend it to the afflicted.

They also state that Mr. Watson, one of their neighbors, who was considered by his friends to be in a consumption, was persuaded to try the European Cough Remedy, and the result was a radical cure.

Remarkable Cure of Phthisic, with severe Cough, communicated by Mr. Brewster, Postmaster at North Corner, Aug. 25th, 1854. Rev. Walter Clarke—*Dear Sir*: Mr. Samuel Shaw, residing in [illegible], Kennebec county, Me., has been afflicted with the Phthisic for a number of years. For the last winter he was so distressed for breath that he could not lay down. At last hearing of the European Cough Remedy, he sent for a bottle, and commenced taking it. He was greatly relieved by the first dose, and from that time he rested well at night. A few bottles completed the cure, and he now desires to recommend the medicine to others, as he is fully assured that it is worthy of the utmost confidence.

The following has just been received from John Dresser, Esq., agent for Paris, Me., dated Nov. 6, 1855.

Dear Sir—You will recollect that when you were here I had a severe cough of three months standing. I had tried all the cough medicines I could obtain without success. Your medicine has cured me. It has also cured many of my neighbors. Please send me some more medicine immediately.

Yours, &c., JOHN DRESSER.

Rev. J. Oliver, West Waterville, testifies to the extraordinary cure of a lady, who, to all appearance, was in the last stage of consumption, so that it was thought she could live but a short time. A single bottle cured her cough, and she speedily recovered. Bro. Oliver states that he knows another person who a long time had been afflicted with the Phthisic, with severe cough, &c., who was completely cured by two bottles of the Universal Cough Mixture.

☞ Sold wholesale by the Proprietor, at Cornishville, Maine.

General Agents for Maine, G. F. Sargent & Co., Druggists, No. 3 corner Smith's Block, Bangor, and H. H. Hay, Portland. Also, sold wholesale and retail by W. L. Alden, and Guild & Harlow, and at retail by the other druggists in the city—at Dixmont by T. Chick, Newburg, Z. Mills, Bucksport, E. S. Parker, Orland, —— Emerson, Penobscot, Varnum & Co. and A. Perkins, Ellsworth, C. G. Peck, Augusta, Wm. Black—and by Agents and Medicine Dealers throughout the country.

No Room for Doubt!!

DR. ORDWAY'S

HUMOR DISCOVERY

IS daily effecting more cures of *Humoral Diseases* than all other medicines together.

Its effects are *new and wonderful*, removing obstructions *from the liver, opening the pores of the skin, carrying off the morbid matter, removing the sinking and all-gone feelings of the stomach, and removing low spirits and despondency*, which is the result of disease.

FOR DYSPEPSIA,—a fair trial will convince you there is nothing like it.

FOR CANCEROUS HUMORS,—it is the surest remedy ever offered.

One widow lady in Lawrence, who has been troubled with CANCER for years, by taking two bottles says she is now quite well.

FOR COSTIVENESS—one gentleman says that it was the only medicine which cured him.

FOR KIDNEY DIFFICULTIES,—it is spoken of in the highest terms.

A young man was sick so much with Asthma he had to leave college; three bottles cured him and he has now resumed his studies.

One lady in Salem was cured of **Periodical Sick Head Ache** by the use of two bottles.
